

The armed ANC takeover of Kennedy Road (including the death of at least 4 people and the exiling of 1,000 residents) has now been condemned all over South Africa and all over the world. This is a new era in South Africa. No longer can we pretend to be a 'rainbow nation' when political parties are actively supporting armed militia in attacks against independent social movements. But we do have an advantage: In the long run, we are doing what is right and therefore we will win.

Below you will find a huge list of statements, articles and blogs. The most important are the following:
